## Experience Summary

---

- 4.5 Years of IT experience in **React, Redux, React Native, Angular, RxJS, NgRx, HTML, CSS, JS, TS, Sass, Material UI, Bootstrap, Axios, AG Grid, GitLab, Github, Jasmine, Jest, Angular TestBed**
- Experience working with debugging tools like Chrome & Edge web inspectors and Firebug.
- Experienced in requirement Analysis, Design, Development, Testing and Implementation.
- Exposure to the complete SDLC phases, Agile model of development (SCRUM) & CMMI Level 5 process & procedures
- Highly motivated team player and individual contributor with good Analytical and Programming. Excellent analytical, programming, trouble-shooting and problem solving abilities.

## SKILLS

---

**Angular, React, NgRx, Rxjs, Redux, React Native, HTML, CSS , JavaScript ,Typescript ,Sass , Material UI , Axios , AG Grid, , Node.js Jasmine, Jest, Angular TestBed**

## Career Profile

**2022- 2024            Tata Consultancy Services**

---

<b>Title</b>	Management Console for TCS Enterprise Cloud Platform
<b>Position</b>	Frontend Developer
<b>Project</b>	A Real-time monitoring cloud portal showing the Backup details, Billing Reports, Capacity and usage reports, security compliance and vendor contract and details.

### Responsibilities

- Developed features for monitoring backup details, including backup status, schedules, and completion reports, providing transparency and visibility into the backup process. Implemented interactive data visualizations using libraries like chart.js to present complex data in an easily understandable format.
- Implemented security compliance features to ensure adherence to industry regulations and internal security policies, including vulnerability scanning, access controls, and audit logging. Developed functionality for managing vendor contracts and details, including contract expiration dates, renewal notifications, and vendor contact information.
- Implemented real-time notification features to notify admins and users of important events, such as backup completion, billing updates, security alerts, and contract renewals, ensuring timely communication and proactive management.
- Conducted user testing and gathered feedback to iteratively improve the portal's usability, performance, and feature set.

Since 2022

Tata Consultancy Services

---

**Title** Ground Effect

**Position** Angular Developer

**Project** Admin portal for Ground Effect project.

**Responsibilities**

- Developed Dashboard for user and infrastructure management, creating intuitive and user-friendly interfaces for administrators to manage system resources effectively. Implemented user authentication and access control features, ensuring secure access to the Admin Portal and protecting sensitive information.
- Worked on sprint bug fixes and screen implementation support, addressing issues promptly to ensure the stability and reliability of the Admin Portal. Fixed responsive layout defects, ensuring seamless user experience across various devices and screen sizes.
- Followed branching and merging strategies to collaborate effectively with other developers, ensuring smooth integration of features and timely delivery of updates.
- Conducted unit testing using Jasmine and Karma, ensuring the quality and reliability of the codebase
- Integrated with backend APIs to fetch and update data, ensuring seamless communication between frontend and backend systems. Collaborated with UI/UX designers to translate wireframes and mockups into functional and visually appealing user interfaces.

2019-2022

UST

---

**Title** Experian

**Position** Developer

**Project** Credit Account Information sharing

**Responsibilities**

- Developed new features and enhancements for web applications using Angular, ensuring alignment with business objectives and user requirements. Followed best practices and coding standards to maintain clean, efficient, and scalable codebases.
- Conducted thorough testing and debugging to identify and resolve issues, ensuring the stability and reliability of the applications. Participated in code reviews to ensure code quality, consistency, and adherence to coding standards.
- Addressed support tickets promptly, providing technical assistance and troubleshooting to resolve issues reported by clients. Collaborated with clients to understand business requirements, gather feedback, and propose solutions to meet their needs effectively.
- Worked closely with cross-functional teams including UI/UX designers, backend developers, and QA testers to deliver high-quality solutions on schedule. Implemented responsive design principles to ensure compatibility and optimal user experience across various devices and screen sizes.

**Certifications**

- Full stack developer training in Java & Angular from IIHT Trivandrum.
